To Our Valued Clients,

We know that there's widespread concern in our community about the Coronavirus Disease 2019 (COVID-19), and we want you to know that your health is our top priority at Cuda Counseling.

**At this time, we are currently transitioning our services to telehealth (online) video sessions in order to provide a safe and healthy alternative to serving our clients.**

**We are also currently accepting NEW referrals!**

With the increasing uncertainty and growing number of infected individuals around the world, we encourage you to take responsibility for yourself and your family. Though the risk remains low, it's important to take a proactive approach to minimize exposure.

- If you've recently been in any airport, please wait 14 days before coming into the office for questions or payment.
- If you or someone close to you has recently traveled to or from Iran, South Korea, China, or Italy, we insist you postpone attending the office until further notice. If this applies to you, please inform me via email, and we can handle any questions or concerns you may have via phone.
- If you're exhibiting symptoms of respiratory illness, I urge you to stay home, take care of yourself, and seek medical help when appropriate.

Please refer to the CDC's dedicated 2019-ncov website for additional information and maintain awareness by checking the official communications from the Centers for Disease Control and World Health Organization.

For any further questions please contact our office or visit our website:
